Artwave West is an independent contemporary art gallery located in a prime position on the busy A35 just outside the west Dorset village of Morecombelake. The gallery's owner had long recognised the potential for contemporary art workshops alongside the varied programme of exhibitions. The LEADER grant has created a superb workshop space within a redundant barn situated next to the gallery building. The project has benefits for the local tourism economy and provides additional potential for meeting and community use.

The new Art Academy offers workshops unique to the area and the venue is already benefitting local accommodation and catering providers.
